DRM-TVLFT-YTKALTI

DRM-TVLFT-YTKALTI (Under-Bed TV Lift System)

DRM-TVLFT-YTKALTI (Under-Bed TV Lift System) is one of DEREMFIX's signature innovations, designed to keep televisions completely concealed beneath the bed when not in use. Using a motorized lifting mechanism, the television rises smoothly and quietly from a hidden compartment beneath the bed into the viewing position, then retracts back into storage after use.

DESCRIPTION

Developed especially for **marine interiors, yachts, boats, motorhomes, luxury hotels and premium residential projects**, this innovative system maximizes space efficiency while maintaining a clean and elegant interior design.

DRM-TVLFT-YTKALTI is a premium motorized TV lift solution that combines concealed storage, quiet operation and advanced engineering, making it an ideal choice for high-end furniture and interior design projects.

DISCLAIMER

The information contained in this Technical Data Sheet is based on laboratory testing, practical experience and current knowledge at the time of publication. The values provided are intended as general guidance and may vary depending on application methods, operating conditions, substrates, environmental factors and production processes.

Since the conditions of use and application are beyond our control, customers are responsible for determining the suitability of the product for their specific application through their own testing and evaluation. The information provided does not constitute a warranty or guarantee of product performance in any particular application.

Product specifications, formulations and technical data may be modified without prior notice as part of continuous product development and improvement programs. The latest version of this document supersedes all previous editions.
