DRM-BOM 620 D

DRM-BOM-620-D (620 mm Adjustable Headrest & Armrest Mechanism)

DRM-BOM-620-D (620 mm Adjustable Headrest & Armrest Mechanism) is a professional adjustment mechanism designed for adjustable headrests and armrests used in sofas, lounge furniture and upholstered seating systems. Featuring a 620 mm operating range and a concave motion geometry, it provides smooth movement, extended adjustment capability and excellent ergonomic comfort.

DESCRIPTION

The mechanism is suitable for both **wooden and metal furniture frames**. For wooden frame applications, DEREMFIX strongly recommends reinforcing the mounting areas with **metal support plates or reinforcement brackets** to maximize structural strength, extend service life and minimize after-sales service requirements.

With its extended movement range, durable construction and ergonomic design, **DRM-BOM-620-D** is an ideal solution for modern sofas, modular seating systems and premium upholstered furniture requiring reliable and smooth headrest and armrest adjustment.

DISCLAIMER

The information contained in this Technical Data Sheet is based on laboratory testing, practical experience and current knowledge at the time of publication. The values provided are intended as general guidance and may vary depending on application methods, operating conditions, substrates, environmental factors and production processes.

Since the conditions of use and application are beyond our control, customers are responsible for determining the suitability of the product for their specific application through their own testing and evaluation. The information provided does not constitute a warranty or guarantee of product performance in any particular application.
