DRM-FXING-PLSTK-36

DRM-FXING-PLSTK-36

DRM-FXING-PLSTK-36 (Adjustable Plastic Profile Insert) is an innovative furniture component designed to be press-fitted into hollow metal profile legs according to specified technical dimensions. It is developed to compensate for uneven floor surfaces and provide maximum stability for furniture.

DESCRIPTION

By eliminating wobbling and balancing weight distribution across all legs, the insert improves seating stability, enhances user comfort and increases furniture safety. It also helps protect furniture structures from unnecessary stress caused by uneven flooring, contributing to longer product life.

DRM-FXING-PLSTK-36 is widely used in sofas, armchairs, chairs, bed bases and other furniture with metal profile legs, providing a durable, aesthetic and innovative leveling solution.

SPECIFICATIONS

A	32 mm
B	41 mm
C	5.5 mm
D	39.86 mm

DISCLAIMER

The information contained in this Technical Data Sheet is based on laboratory testing, practical experience and current knowledge at the time of publication. The values provided are intended as general guidance and may vary depending on application methods, operating conditions, substrates, environmental factors and production processes.

Since the conditions of use and application are beyond our control, customers are responsible for determining the suitability of the product for their specific application through their own testing and evaluation. The information provided does not constitute a warranty or guarantee of product performance in any particular application.

Product specifications, formulations and technical data may be modified without prior notice as part of continuous product development and improvement programs. The latest version of this document supersedes all previous editions.
