DRM-TMS-PLSTK

DRM-TMS-PLSTK

DRM-TMS-PLSTK (Knock-Down Plastic Connector) is a high-strength fastening component developed to securely connect bed bases, sofas, cabinets and modular furniture edge-to-edge. It enables quick assembly and disassembly, improving manufacturing efficiency while simplifying transportation and installation.

DESCRIPTION

Manufactured from high-performance engineering plastic, DRM-TMS-PLSTK is a reliable alternative to conventional metal connectors. Contrary to the common misconception that plastic connectors offer lower strength, its advanced material formulation and engineered design provide excellent mechanical performance, secure fastening and long-term durability comparable to demanding furniture applications.

DRM-TMS-PLSTK offers furniture manufacturers an innovative solution that combines durability, easy installation, corrosion resistance and a clean, professional appearance.
