

DRM-LIFTTWO-WM

## DRM-LIFTTWO-WM (Dual-Motor Power Lift Recliner Mechanism)

DRM-LIFTTWO-WM (Dual-Motor Power Lift Recliner Mechanism) is an innovative power lift recliner mechanism specifically developed for users with limited mobility. Equipped with two independent electric actuators, it allows the reclining functions and the lift-assist function to be controlled separately, providing maximum comfort and highly personalized seating positions.

### DESCRIPTION

One actuator controls the synchronized movement of the backrest and footrest, while the second actuator independently performs the lift function, gently tilting and raising the chair to help the user stand up safely with minimal physical effort. The dual-motor design offers greater positioning flexibility and precise adjustment for enhanced comfort and usability.

Widely used in **healthcare facilities, hospitals, rehabilitation centers, nursing homes and senior living furniture**, **DRM-LIFTTWO-WM** combines innovative engineering, advanced mobility assistance technology and superior ergonomic performance, making it one of DEREMFIX's flagship healthcare seating solutions.

### DISCLAIMER

The information contained in this Technical Data Sheet is based on laboratory testing, practical experience and current knowledge at the time of publication. The values provided are intended as general guidance and may vary depending on application methods, operating conditions, substrates, environmental factors and production processes.

Since the conditions of use and application are beyond our control, customers are responsible for determining the suitability of the product for their specific application through their own testing and evaluation. The information provided does not constitute a warranty or guarantee of product performance in any particular application.

Product specifications, formulations and technical data may be modified without prior notice as part of continuous product development and improvement programs. The latest version of this document supersedes all previous editions.
